THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Wheeler on 25 March 2008.

2. The application has been amended as follows:

Please amend claim 1 as follows:

1. An electronic circuit, comprising:
 - a first circuit unit including a plurality of transistors through which a first current having a first current level passes;
 - a switching element mutually connected to the plurality of transistors in the first circuit unit;
 - a capacitor element to store a quantity of electric charge corresponding to the first current level; and

a second circuit unit including a plurality of transistors to generate a second current having a second current level different from the first current level on the basis of the quantity of electric charge stored in the capacitor element,

respective gates of the plurality of transistors in the first circuit unit being mutually connected to respective gates of the plurality of transistors in the second circuit unit,

the plurality of transistors in the first circuit unit and the plurality of transistors in the second circuit unit having the same driving capability,

the first circuit unit and the second circuit unit constituting a current mirror circuit through the capacitor element by turning on the switching element, and

the plurality of transistors in the first circuit unit are connected in one of series or parallel and the plurality of transistors in the second circuit unit are connected in the other one of series or ~~a~~ parallel.

Please amend claim 14 as follows:

14. An electronic device provided with a first signal line, a second signal line, and a plurality of unit circuits, each of the plurality of unit circuits comprising:

a switching element connected to the first signal line, an on/off state of the switching element being controlled by switching signals supplied from the first signal line;

a first circuit unit including a plurality of transistors connected to the second signal line, a first current having a first current level supplied from the second signal line passing through the first circuit unit by switching on the switching element;

a capacitor element to store a quantity of electric charge corresponding to the first current level; and

a second circuit unit including a plurality of transistors to generate a second current having a second current level different from the first current level on the basis of the quantity of electric charge stored in the capacitor element,

the switching element mutually connected to a the plurality of transistors in the first circuit unit;

respective gates of the plurality of transistors in the first circuit unit being mutually connected to respective gates of the plurality of transistors in the second circuit unit,

the plurality of transistors in the first circuit unit and the plurality of transistors in the second circuit unit having the same driving capability,

the first circuit unit and the second circuit unit constituting a current mirror circuit through the capacitor element by turning on the switching element, and

the plurality of transistors in the first circuit unit are connected in one of series or parallel and the plurality of transistors in the second circuit unit are connected in the other one of series or in parallel.

Allowable Subject Matter

3. Claims 1, 4-5, 8-14, 17-18 and 21-28 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is the inclusion of the limitations of each of the first and second circuit units having a plurality of transistors, each plurality having the same driving capability as well as one circuit unit being in series while the other is in parallel, these limitations in combination with all of the recited features not being found singularly or in combination within the prior art.

The closest available prior art reference (Kimura US 6,909,242 and Yumoto US 2005/0200300) disclose of having different circuits in series and in parallel, however, the combination of these two reference does not teach of having a first circuit in series/parallel while a second circuit is in parallel/series with all of the respective gates of the transistors connected together, and with all of the transistors having the same driving capability.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
